

# SUPER NOBELAIR® SOFT

- 1 Extra-flexible blue PVC
- 2 Polyester reinforcement
- 3 Extra-flexible black PVC

## APPLICATIONS

Pneumatic tools, equipment of assembly workshops, wall mounted reels, carts and compressors.

## MARKING

SUPER NOBELAIR SOFT Ø inn x Ø out / Ø inn x th. 15 BAR  [Batch number]

## Highly flexible hose for compressed air.

Three-layer design, in extra-flexible PVC, with high strength polyester reinforcement.

## ADVANTAGES

Compounds specially developed for SUPER NOBELAIR® SOFT give it a high flexibility even at low temperature. This property, associated with lightness, makes the use of this hose easier; therefore the hose is particularly appreciated by users of pneumatic tools both outdoors and indoors. PVC structure eliminates any risk of cracks (flaws of a lot of rubber hoses), making this hose long lasting.

Thanks to a well balanced reinforcement, SUPER NOBELAIR® SOFT has a high pressure resistance with little distortion under pressure. So it can withstand long and frequent impulse cycles.

## CONNECTORS

Quick connectors, barbed or serrated grooved connectors. Band, worm drive, screw or butterfly clamps. Cap connectors. Swaged fittings can be used if they do not damage the hose.

## CHEMICAL RESISTANCE

See table pages 110 to 113 column A.

	$\pm$ mm		$\pm$ mm		mm		g/m		bar		mm	Blue
