

# WASHING GUN LOW PRESSURE

This low pressure washing gun is designed for all your industrial cleaning operations buildings, agribusiness laboratories, equipment, machines, vehicles...

The automatic shut off trigger enables considerable reduction in water consumption. According to the pressure, you exert on the trigger to adjust the power. You can vary from a wide spray to a powerful concentrated jet. It is sturdy, maintenance free, made from brass and stainless steel, covered with a EPDM coating to provide protection against shocks, chemical detergents and heat.

It is mandatory to wear heat-resistant and waterproof gloves when the fluid temperature exceeds 80°C.

Fittings: BSP 1/2" female.
